

ANNE MARIE PACE

LIVE AND VIRTUAL SCHOOL VISITS

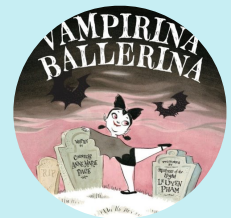

FLEXIBILITY AND FOCUS

Like many authors I enjoy sharing my books with children.

As both a former teacher and a parent, I know that teachers and librarians want visiting authors to be engaging, inspiring, and educational. I have developed my presentations in conjunction with educators.

I am able to present both live and virtually. I will be conducting virtual visits using Zoom, Skype, and other platforms. Virtual visits can include the same quality content as my live visits, adapted for the virtual format. I can meet with individual classes, an entire grade, or an entire school, depending on your school's needs and the limits of our technology.

PRESENTATION AND FEES

My standard presentations include How Books are Made and The Writing Process for K-2 and The Writing Process and Writing Workshop for grades 2-5. I also have a popular presentation focused on VAMPIRINA BALLERINA in which I discuss practice, perseverance, and hard work.

My full-day school visit fee is \$1400, plus lodging and travel costs. This fee includes three assemblies, adapted by grade level. Shorter visits and virtual visits are priced by time and content. Please contact me through the form on my website and tell me about your school's needs.

“Ms. Pace is a consummate teacher who readily engaged each and every student in the group.”
—J. Cecalupo, Virginia

FEES FOR SPECIALTY PRESENTATIONS

If your school wants a presentation that is specifically tailored to your school's needs, there will be an additional fee from \$200-\$500 in addition to the fees listed above. Please talk with me about what kind of program you are interested in. In the past, examples of specialty presentations include a Beginnings/Middles/Endings workshop for third graders and a revision workshop for fourth graders.
